

GREECE ISSUES ORDERS FOR MOBILIZATION

American Soldier Is Killed By Carranza Forces

OTHERS ARE WOUNDED IN MEXICAN ATTACK

Brownsville, Texas, Sept. 24.—Mexicans today attacked a detachment of United States soldiers at Progreso, forty miles west of here, and killed Private Stubblefield, of Troop B, Twelfth United States Cavalry, according to advices received here.

The Mexicans approached from the direction of the Rio Grande, one mile distant from the frontier. The American detachment, which has been on duty at Progreso since its recent fight when a soldier was killed and an officer wounded, was camped in front of a house. The Mexicans opened fire and Private Stubblefield fell at the first volley.

The telephone wires between Mercedes and the point where the fight occurred were cut early this morning and only meagre details were obtainable.

It was reported that besides killing Stubblefield, Mexicans wounded

two other American soldiers. The Mexicans engaged were said to be Carranza soldiers. The American soldiers quickly returned the fire, moving rapidly toward the house and firing at the Mexicans every time one showed himself. The Mexicans retreated in the brush in the direction of the Rio Grande. The Mexican casualties have not been ascertained. One troop of the twelfth cavalry and a large detachment of the twenty-sixth infantry were engaged in the fight.

San Antonio, Texas, Sept. 24.—General Reuel Madero, of Villa's staff, has been arrested by American soldiers near Marfa, Texas, according to report to Maj. General Frederick Funston today. With Madero were eight companions, all supposed to be Villa officers, who were also arrested. They were taken into custody when they crossed to the American side of the Rio Grande.

YOUTH ADMITS PLOT FOSTERED BY STRANG

Cincinnati, Sept. 24.—Harold Switzer, aged 19, who was arrested here early today in connection with the case of Robert C. Strang, who is claimed by the police to be under arrest in New Orleans after having supposedly been drowned here, and after his wife is alleged to have collected considerable insurance from policies made out on Strang's life, has made a statement to the police.

Switzer told the police that the entire proceedings were "framed up." He said that he took Strang on a motorboat ride; that he put him off near Anderson's Ferry, where he boarded a train for the South; that he (Switzer) then brought the motorboat back up the river, deliberately ran into a pier of a bridge, and bringing the boat into harbor reported that Strang had been drowned. He said that he had received \$200 for his part in the case and had been promised more, but had not obtained it.

He stated that the reason Strang wanted to appear as though he

had been drowned was that he was losing money on a contract to build a Moose Temple here and could not complete it.

Mrs. Strang is under arrest in Youngstown, Ohio.

THREE DIE IN WRECK

Plattsburgh, N.Y., Sept. 24.—Three trainmen were killed and four others seriously injured this morning near La Platte, N.Y., five miles north of here on the Missouri Pacific railroad when South-bound passenger train No. 104 from Omaha to Kansas City met a northbound fast freight head on on a sharp curve. A misunderstanding of orders is believed to have caused the accident.

New York, Sept. 24.—A protest against the proposed Anglo-French loan was sent to President Wilson, the treasurer of the state of New York, the state banking department, the mayor, comptroller and chamberlain of New York today by the American Truth Society. The protest was expressed by resolutions adopted last night at a meeting. Alphonse G. Keoble, president of the German-American Alliance of New York, was one of the speakers.

Mrs. Peter Jahraus continues seriously ill at her home on Fourth street near Bond.

WAR BULLETINS

Sofia, Sept. 24.—(Via London)—Although a partial mobilization of the Bulgarian army has been announced here as imminent, it is now general and comprises all the reserves since 1886, thus including men approaching their fiftieth year. The total Bulgarian forces, including Macedonians is likely to reach 700,000. Those not included so far are untrained men a small class which is exempted under taxation. Save for an outburst of enthusiasm the Bulgarian capital is quiet.

Paris, Sept. 24.—Moniteur de la Flotte, the official organ of the French naval department announced today that French forces had occupied Ruad Island, in the eastern Mediterranean west of Crete and two miles off the Syrian coast. LEGISLATORS OPPOSE M'DERMOTT LAW; O. K. GERRYMANDER

Chattanooga, Tenn., Sept. 21.—Surfited with their three day's experience as guests of the citizens of Cincinnati, the Ohio legislators and their ladies started out today for the fourth day's pleasure. The day will be occupied with visits to the famous battlefields of the civil war at Chickamauga, Lookout Mountain, Signal Mountain and Missionary Ridge; a reception by citizens; trolley ride and dinner. Representative Norman R. Bliss, of Cleveland, started a movement on the train yesterday for holding the next reunion at Cleveland.

Senator Charles C. Cass of Ottawa, author of the bill appropriating \$20,000 for a monument to Ohio soldiers in the civil war on the Chickamauga battlefield, today assembled the members at the site selected and called attention to the provision of the bill.

Captain Ira I. Morrison, index clerk of the senate, said: "The arrangements on this trip only reflect the efficiency of organization. I'm going to take a night off when I get back to Columbus to see if I can discover anything that has been overlooked by your committees."

There were several straw ballots taken on the train. One showed that 59 members of the assembly are opposed to the McDermott Liquor License Law and 37 in favor of it. A similar vote on the Sprague Gerry-mander bill resulted in 51 affirmatives and 41 negatives. Both of these measures will be the subjects of a referendum this fall. There are 232 persons on the trip of whom 78 are women and one child, Bobby Bath, of Columbus, who is the mascot of the tourists.

OFFICERS THINK THEY HAVE OLD BOOTLEGGER

Charleston, W. Va., Sept. 24.—The mystery of the "Old Man of Kelley's Creek," who is alleged to have been one of the most successful bootleggers in the state, is believed by federal officers to be solved in the arrest of Louis Peters, aged 22. It is alleged that Peters in the guise of an old man, wearing false gray hair and a patriarchal set of false whiskers, sold whiskey in violation of the prohibition laws. Without whiskers and false hair he worked as a miner.

PRINCE IS KILLED IN FIGHTING

Amsterdam, Sept. 24.—(Via London)—Prince Frederic of Thurn and Taxis, son of Prince Lmoral, was killed Monday while fighting in the Dniester region in Russia, according to a Vienna dispatch to the Berlin Lokal Anzeiger. He was 41 years old.

QUAKE IS FELT IN ITALY

Rome, Thursday, Sept. 23.—(Via Paris, Sept. 24)—The earth shock which was felt here tonight was more pronounced in other districts of Italy, but so far as has been reported no great damage was done. At Avezzano the earthquake caused the people to rush from the huts in which they have been living since the great disaster of last January, because no buildings have been erected there since the city was destroyed.

Messina, Sept. 24.—(Via Paris, 1:50 p. m.)—A strong earth shock occurred here last night at 9:15 o'clock. It caused a panic among the people who rushed to the streets and squares. Many persons remained in the open all night but no damage was done.

ARCHIBALD WONT BE PROSECUTED

Washington, Sept. 24.—James F. J. Archibald, the American who acted as messenger for Dr. Constantin T. Dunbar, Austro-Hungarian ambassador here, probably will not be prosecuted by the department of justice. Examination of the papers relating to Archibald's activities has not been completed by the department, but some officials say there is no statute covering the case. As a result of the incident, however, it was said that congress would be urged to enact a law to cover such cases.

THEY'RE OFF
Columbus, Sept. 24.—The 1915 college football season in Ohio will be opened tomorrow with teams playing as follows: Wittenberg at Ohio Wesleyan; Heidelberg at Oberlin; Ohio at Transylvania; Ohio Northern at Miami; Case at Akron, and Muskingum at Mt. Zion.

GEN. VON HINDENBURG MAKES FURTHER GAINS

Berlin, Sept. 24.—(Via London)—Field Marshal Von Hindenburg has made further progress in his efforts to capture the Russian fortified city of Dvinsk. The taking by storm of additional Russian positions defending the city northeast of Smelina is officially reported today.

Athens, Sept. 24.—A decree for general mobilization of twenty classes of Greek soldiers was signed last night by King Constantine, and promulgated.

The decision of the king has aroused the greatest enthusiasm. Issuance of the mobilization decree came quickly after the king had granted an audience to Premier Venizelos. The premier informed the king that mobilization was the only possible reply to Bulgaria's move. To this the sovereign agreed stipulating that it should be regarded as a defensive measure. The minister of war, General Danglis, subsequently took the decree of the palace and the king signed it. The twenty classes now called to the colors are in addition to four classes already under arms.

London, Sept. 24.—The Greek minister here today received notification by cable of the issue in Athens of the Greek mobilization, it being stated that action by Bulgaria made it incumbent upon Greece to follow suit.

London, Sept. 24.—Military activities on the eastern front are once more assuming the familiar phase of a slow German advance, following the recent impetuous rush of the invaders. The German plan of dividing the Russian armies north and south of the Pripiet has been a strategic success in a way, but the immediate effect of the severance was to throw an increased burden on the Austrians who seem liable to check the Russian drive.

Unofficial dispatches from Petrograd state that the latest Russian victory, northwest of Dubno, is of more importance than was revealed by the official communication from Petrograd involving recapture of the fortress of Lutsk, northwest of Dubno. Relinquishing this fortress, the Austrians are said to have retired across the Styx. All the way from the Baltic port of Riga to the Pripiet marshes the Russians are holding their line stubbornly in an attempt to bring their long retirement to an end. The fighting is particularly severe southeast of Vilna and east of Dvinsk. Envelopment of the Vilna army having failed, it is assumed the Germans will develop their offensive movement at Dvinsk; with the view of an ultimate blow at Riga. It is generally believed the Germans have determined to capture Riga before the onset of winter.

GERMAN WAR LOAN A DISTINCT SUCCESS

Berlin, Sept. 24.—(Via London)—All accounts agree that the new German war loan is an emphatic success. Dresden and vicinity subscribed 255,000,000 marks (\$63,750,000) as compared with 211,000,000 marks for the March loan; Cassel subscribed 100,000,000 marks as compared with 77,000,000 in March.

To illustrate the heavy participation of small subscribers, it is stated that nearly 45,000 depositors of the Berlin Savings Bank subscribed to the loan as compared with 35,000 in March.

READY TO SENTENCE PLOTTERS

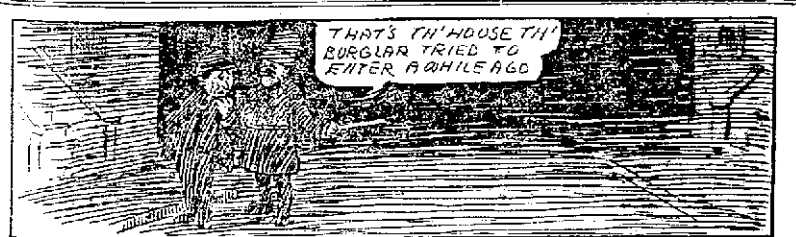

Corpus Christi, Texas, Sept. 24.—Five men convicted of conspiracy to corrupt the general election of November 1914 in Nueces county were to be sentenced today in the United States District court here. August Uehlinger, Henry Stevens, Tom Dunn, Lee Riggs and Ed Castleberry are the convicted men. Thirty five other men were acquitted and a mistrial was declared in the case of County Judge W. F. Timon.

French Soldiers May Get Five Cents A Day
Paris, Sept. 24.—The army committee of the chamber of deputies has decided to recommend that the pay of French soldiers be increased from one cent to five cents a day from July 1, 1915. This change would mean an increased expenditure of about \$25,000,000 a year.

Another o' th' nice things about pullin' off our annual Koro Karnival is that it's a dead certain sure cure for that tired feelin' a lot of us get that tired feelin' from sheer from sheer—I'll not call it laziness but inactivity. And there's no chance that I've seen for inactivity durin' Koro Karnival season. Here's for tomorrow: Ohio—Partly cloudy tonight and Saturday; cooler in extreme north portion tonight. Kentucky—Partly cloudy tonight and Saturday. West Virginia—Fair and somewhat warmer tonight. Saturday partly cloudy.

Horrors, Portsmouth Man's Auto Gets Sick, He's Almost Burglar In Darkest Chillicothe

By VAN
"Woof, woof," barked the lithe dog as a step sounded on the porch. This was in darkest Chillicothe Thursday evening when Portsmouth people captured the Capital.
This little dog was barking at one of Portsmouth's very best friends, a man who had gone over in his car in the afternoon. The little dog became frightened at something during the afternoon, became seriously ill, and this Portsmouth gentleman decided that he would stick by his friends and stay there all night, figuring that the dog would improve the feeling of his auto.
All the hotels were filled to overflowing, so in the afternoon he negotiated for a room in a residence somewhere in the wilds of Chillicothe. Being from the large city of Portsmouth he had no idea that he would experience any difficulty in finding his place.
He left the gateway of Paint-st., shortly after ten o'clock and started for said rooming house. After having traveled over temporary roads for some little space he finally found the neighborhood in which he had secured his room. The streets were dark.
This Portsmouth gentleman was worrying about the illness of his little car. He finally picked out a house which he thought was the one he had a room in. He groped his way up the steps, stumbled over a porch chair.
"Twas then that the opening sentence" of our yarn occurred, said the gentleman realized that he

was on the wrong porch, beat a hasty retreat and sought the aid of the Chillicothe police department.
He found him down on the gay white way. He said that he was going out in that neighborhood anyway to answer a burglar alarm but had just been waiting for someone who was going in that direction.
The police department used his electric flash light to pick their way thru the darkness.
"There's your house," he said at last. "The house the burglar was trying to enter a few moments ago is the one just across the street."
The gentleman from Portsmouth gasped, his eyes bulged and he said:
"Then, I'm the burglar."

AUTO ACCIDENT

While being driven about two miles north of Waverly, Thursday morning, the R. L. Bates automobile skidded in a bed of gravel, striking a telephone post along the side of the road. The front axle was badly bent, necessitating the return of the machine to Waverly to have it repaired.

Three of the occupants, Mrs. R. L. Bates and Rev. and Mrs. E. A. Powell, were hurled from the machine, but all luckily escaped injury. Mr. Bates, who was driving, was the only one to retain his seat. The automobile made the rest of the trip to Chillicothe and return without incident.

Little Girl Is Injured

Ruth Dill, eight-year-old daughter of Mary Dill of South Webster, was knocked unconscious about 9:30 o'clock Thursday morning and did not regain consciousness until late Thursday evening. The little girl was playing at recess at school and several of the children were roller skating on the cement sidewalk, and a boy crashed into her.

She had to be carried to her home and the physician who attended her says that she was lucky to escape without a fractured skull.

LITTLE PIMPLES ON CHILD'S FACE

Itched and Child Scratched. Could Not Leave Them Alone. Something Terrible. Used Cuticura. In a Month Child Was Healed.

Maria Beach, Mich.—"My little daughter was nearly two years old when she had little pimples come on her face. It was just a little red bump when it first started. I think they must have itched for she would scratch them until they would get to be large sores, nearly as large as a fingertip. It seemed as if the poor girl could not leave them alone; if we held her hands she would try to rub her face on something else. It was just terrible.

"I must have done everything I could think of and everything anybody told me to use and nothing would help her. I decided to get Cuticura Soap and Ointment and before I had used them one week I could see they were healing. Before a month was up you would never know the child had ever had any sores on her face." (Signed) Mrs. Lewis White, June 22, 1914.

Hunt Is Blamed

The public service department holds G. D. Hunt, a Gallia street meat dealer, responsible for the clogging up of the sanitary sewer the opening of which came near costing the lives of Van Lotell and Benny Boydston, Thursday.

The department has advised the mayor that Hunt took the liberty of removing a cover from the sewer and depositing entrails and other waste material from his slaughter house, producing a most offensive odor and causing the department to spend three days with a force of men in removing the obstruction.

Mr. Hunt has been directed to call at the service office and arrange to pay for the cost of removing the obstruction and pay for the medical service and loss of time of the city employees, as well as guarantee that he will not repeat his act again. Lotell had sufficiently recovered to permit of his discharge from Hempstead hospital, Friday morning.

Don't Poison Baby.

Forty years ago almost every mother thought her child must have PARSORIC or laudanum to make it sleep. Those drugs will produce sleep, and a few drops too many will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by pargoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is "a medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of J. C. F. Fitcher.

Genuine Castoria always bears the signature of J. C. F. Fitcher.

PASSED HAT FOR TRAIN RIDER

What is a leg or an arm, or possibly your life worth, when there is a Fall Festival in Chillicothe? Henry Roburn, a North Carolina negro, must have thought so when he started "blind baggage" on the Elks' special to Chillicothe Thursday evening. He was discovered by Detective Andy Leslie after the train had passed Waverly, and was

put off. After the train got in motion again, Roburn was seen riding on a step. He was again nabbed by Leslie, but was not ejected from the train. Why?

Because a crowd of excursionists passed the hat and raised money to buy five tickets for Roburn.

Has Faith In Quick Remedy For Catarrh

Wurster Bros. Guarantee That Hyomel Will Relieve the Worst Cases of Catarrh in Portsmouth

When one of the most reputable concerns in Portsmouth guarantees that a medicine will produce benefit if they will refund the money, it speaks volumes for the merits of that remedy. It is in this way that Wurster Bros., are selling Hyomel, the treatment that has helped so many cases of both acute and chronic catarrh in Portsmouth and vicinity.

Hyomel is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil, the air of which you just breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Benefit will usually be seen from the very first treatment. This air destroys all germ life in the air passages and lungs and catarrhes and purifies the blood with the additional "zone" it supplies. It banishes catarrh of the head and throat and respiratory organs. Whenever these mucous membranes contain catarrhal germs, they Hyomel will do it—work of breathing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grows the balsam trees and plants, which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

The complete Hyomel outfit is inexpensive includes an inhaler, dropper and sufficient Hyomel for several weeks' treatment. Remember that if Hyomel does not relieve you Wurster Bros. will refund your money. This is a good time to get rid of catarrh by this natural method and prevent catarrhal colds that are so common at this season.

WHY THE KORN KARNIVAL?

Only a few days will elapse until Portsmouth enters upon what will undoubtedly be the greatest gala event in her history, the third annual Korn Karnival. All of the features are well in hand, and with anything like an even break from the weather man not only will crowds of visitors surpassing by far any previous records come to the city, but these visitors will be astonished and delighted at the various amusements that have been planned for them, at the hospitality that will be lavished upon them, and at the magnitude of the various spectacles which will enliven the different days.

It will truly be a week of gaiety, of jollification and innocent amusement.

But if Korn Karnival history were all written with the above summing up, there might well be occasion to stop and ask the question: "What the use?"

Fortunately back of all the gaiety and display there are vital factors at stake upon which rest the future growth of Portsmouth and Portsmouth territory to no small extent.

The brahmy business men who dreamed the first Korn Karnival and made of it a success, and each succeeding one "bigger and better," saw a vision of the barren hills in Scioto and adjacent territory covered with trees filled with tempting fruit, bringing wealth, health and happiness to many who now have a difficult task in providing the mere necessities of existence.

They saw the grade of live stock gradually growing higher and higher and as a result the increasing size of the stream of gold flowing into the farmer's pocket.

They saw the wider dissemination of ideas concerning intensified farming, the selection of the best kind of seed, and other things which are surely making the farmer the big factor in the prosperity of the nation.

It was to help bring realization of these visions that the prizes have been offered for the best displays of the various products of the soil, for the best displays of stock, for all the things that help to make the farmer more prosperous. For as the community about Portsmouth grows and prospers how can the growth and prosperity of Peerless Portsmouth be checked?

And aside from these highly desirable materialistic results of the Karnivals there is the "get-together" factor, which has become so prominent that it is really one of the big things of the week. This year finds practically a united business interest, a united manufacturing interest, a united labor interest, and various other interests all pulling for one thing with genuine enthusiasm, the success of the Korn Karnival. It can't help but increase the prosperity of the city.

For those who may think they have no part in these affairs it might be well to suggest that they may do a big thing if they take occasion to impress upon each of the visitors they know the fact that Portsmouth stores offer the best bargains and that Portsmouth manufacturers turn out products that are known everywhere as dependable, and are standards for their class.

Let every one have a good time Karnival week, but don't think that it is all for fun and frolic.

HOW ABOUT YOUR LOVED ONES?

When your dear ones are gone, what memories of service to them will you cherish? Are you doing any of the "hundred and one" little things that you have opportunity to do each day, to let them know you love them?

The idea was brought forcibly before us by hearing a conversation concerning a recent death, as follows:

"They say her daughter used to comb her mother's hair every day of the world, and as she smoothed out the tresses she would say, 'Mother you are the sweetest and the prettiest woman in the world.'"

And the mother, whom more than 80 years had left wrinkled, and with faded wisps of hair, would thrill with the truest pleasure imaginable, and shyly answer, "Now dearie, you know better than that."

It is a pretty picture, and a pretty memory for the daughter to cherish is it not? It is the picture of a "love task" faithfully and perfectly performed, which will help lessen the overwhelming grief that death, no matter how long anticipated, brings to those left behind.

Have you any such pictures to cherish?

More or less consuming interest hereabouts is centered in the speculation as to whether the Cincinnati Reds will finish in the first division. The man who stands on the First National Bank corner every day, expresses the opinion that the only safe thing to venture about the Reds is that you never know a blamed thing about what they are going to do next.

The man who sits next to us on the street car observed this morning that he had been studying this game of tennis so many people are playing now, and he notices that there is "No love after forty."

Speculation has already begun about the first Peerless baby of 1916. The Times will again co-operate with local merchants in making his arrival an auspicious affair.

AND IT'S NOT A "HOWLING SUCCESS" AT THAT.

845 BAKER Gallia
 The Sleepless Shoeman

New York Sept. 24.—Aaron Burr's back yard in the rear of his old home three doors from Broadway on Morris street, was never in such awful condition as it is now—not in a hundred years. When Aaron lived there and bossed the Tammany machine from the front room rhododendrons blossomed along the gravel path in the big garden. Also there were hollyhocks.

Whatever you may say of Aaron, he did love flowers, but now! Mercy what a change. To curve the new subway around under Broadway in front of Bowling Green Building the unsentimental contractors have mused things up right where Burr had his biggest posy bed.

Delvers in the historical have visited the spot in the hope of picking up something worthy of preservation as a memento of by-gone time. But the only thing that could be found was an empty beer-keg. It wouldn't look well in the parlor even if a blue ribbon was tied around it so it remained.

You would never believe who is in town! None other than the artist who painted "Nude Descending the Staircase." You remember him! We thought not. His name is Marcel Duchamp. Wouldn't that make a perfectly adorable name for one of the Veranda Boys who mingle with the Scandal Squads on our summer hotel porches?

Marcel blew into town the other day to loaf, dodge the All-Corners War and gossip with our artistic folk. In the spring of 1915, he shocked, grieved and delighted New York with his picture.

Most every reporter in town went to see it and looked for the "Nud". The picture as Marcel later explained, was merely a picture of motion, not of a nude. Many went away cursing softly.

Introducing Miss Lucy Huffer, the unsalaried press agent, Miss Huffer "does fiction" for a living as they say around Washington Square. Offers came to her with dazzling opportunities, but she turned them all down.

Catarrh a Blood Disease S.S.S. Drives It From Your System

Because Catarrh affects the nose and throat, causing sores in the nostrils, stoppage of air-passages and gathering in the throat, it has been common practice to treat Catarrh by lotions, washes and sprays applied to these parts. This mode of treatment is entirely wrong. It cannot give permanent relief, and it is liable to irritate and aggravate the trouble. Catarrh cannot be trifled with. If allowed to run on it will disease the bronchial tubes, settle on the lungs, the stomach—indeed it is a very serious disease. Don't treat it locally. The fact that it causes hemorrhages in the nose and is caused by impure and diseased blood. The one treatment that has proved effective in the treatment of Catarrh is S. S. S.

Better Each Day

Better each day that we travel along, Children of sunshine and laughter and song; Bearing our burdens and meeting our care With something that helps us to grin and to bear.

Better each day that we stick to the strife, Manly and free in the fanfare of life; Giving our best to the task and the toil, Firm in our faith of the sky and the soil.

Better each day as we drift to the gleam, Better for all that we do and we dream, That down in the heart of us trust on its throne, Sits waiting for love to come to its own.

Better each day for the battle we face, Better for sorrow and better for grace, Better for being true men in the fight, And upright and honest and steady and right.

Better each day for all things as they are, Better that still we may follow the star Of hope and endeavor, of peace and good cheer, To the rest in the realm of love's dreaming, my dear.

The Movies

"The Puppet Crown", Paramount Attraction, Columbia Tonight.

Ina Claire makes her second appearance in motion pictures at the Columbia tonight in Jesse L. Lasky's picturization of Harold McGrath's most famous romance, "The Puppet Crown," and this production is made all the more notable by the fact that Carlyle Blackwell, one of the most popular men in motion pictures, makes his first appearance under the Paramount banner.

The heroine of the story is the Princess and heir to the throne of a little European kingdom of Asia; while attending an American school in disguise, she falls in love with a rich young American, but on being summoned home realizes that she can never marry him.

Soon a revolution breaks out in her home country and the American rushes to her rescue, and the many interesting scenes attendant and following their return to America makes a five reel picture filled with the keenest excitement.

The Columbia orchestra which made such a hit during the past two days playing "The Eternal City" will play special selections during the showing of this picture this evening.

Tomorrow, Manager Tynes announces "The Darkening Trail," a four part story of Alaskan life featuring William S. Hart and Enid Markey.

Up in the Alaska country the arrival of a boat is an event and this has never been more graphically illustrated than in the scenes in the four-part Mutual Masterpiece, "The Darkening Trail," showing the steamer's arrival at the town of Good Hope. People swarm down to the docks and the gang plank. All the news from the world lying beyond the confines of the White Silence is eagerly requested, and all in all the depiction is so humanly alive that the spectator feels himself almost a part of that which is being shown before him. "The Darkening Trail" will be shown at the Columbia tomorrow afternoon and evening.

At The Exhibit

A story based on the celebrated life of General Villa, the well known Mexican general, is to be thrown on the screens at the Exhibit tomorrow. A well known actor will impersonate the Mexican general and his acting is said to be the personification of the former Mexican outlaw. The title of the picture is "The Outlaw's Revenge." It is a big four reel picture and has thrilling scenes of the war torn country of Mexico. Don't fail to see it tomorrow.

Tonight's big dramatic triumph will be Marion Leonard in "The Vow."

The story deals with life among the picturesque mountaineers of Kentucky to the drawing rooms of Fifth Avenue, New York.

At the opening of the story, Madge Hawkins, the heroine, falls in love and marries Allan Birch, son of a Kentucky mountaineer, much to the discomfiture of her cousin, Cash Hawkins, who is in love with Madge. The feud, which has been smoldering for years be-

When the Hawkins and the Birchers came, breaks forth with renewed vigor, and Cash Hawkins kills Allan Birch, husband of Madge. By a web of fate, the story is carried from the mountains of Kentucky to the drawing rooms of Fifth Avenue, New York city.

Miss Leonard is at her best in the part she portrays in this mountain story. He finished art and life from the atmosphere of the haze-clad Kentucky mountains, with their howling torrents, to the smooth surfaced, but more deadly currents of Fifth Avenue. Never has she done anything better or looked more superb in her picture career.

Will Build Warehouses

Norfolk, Va., Sept. 24.—President L. E. Johnson, of the Norfolk and Western Railway, today announced that the company will spend at least \$1,800,000 for the construction of two warehouses at Lambert's Point, where the largest coal pier in the world is located. One will be for south-bound business and the other for north-bound business.

The tremendous increase in foreign business since the war has made the present facilities at Lambert's Point too small for the handling of both foreign and coastwise trade.

CHICAGO GRAIN AND PROVISIONS

Chicago, Sept. 24.—Relief from tension regarding a possible squeeze of shorts was evident in the wheat market today owing to the board of trade directors having decided that No. 1 velvet chad would be acceptable on time contracts here, although subject to a penalty. The consequence of the ruling was to render virtually certain a sufficient supply here to fill all necessary deliveries on September options. Big receipts northwest and the fact that cables were weak tended to ease the market. Opening prices which ranged from the same as last night to 3/4 lower with December at 93 1/4 to 93 3/4 and May

at 96 to 96 1/2, were followed by a moderate rally, but then a fresh downturn.

Corn developed, influenced by the comparative smallness of the stock on hand here. Bulls, however, were not aggressive. After opening 1/4 off to a shade advance the market scored a rise all around.

Oats sympathized with corn. Bids, there was a fair shipping inquiry.

Higher prices for hogs gave strength to provisions. Lard and ribs were in especial demand.

Assertions that a huge gap existed in European wheat and flour supplies tended afterward to lift the market. There were reports of sales here to go to the seaboard. Prices closed strong 1/2 to 1 1/4 above last night with Dec. at 95 1/4 and May at 97 1/4.

Unsettled weather counted against the bears. The close was firm, 1/4 to 1/2 net higher.

If your stove is thin "sheet" iron you can get a small can of stove pipe enamel and go over them, and if cast iron use just the ordinary stove polish.

Dear Miss Wise.—I would like to give a suggestion to the Kora Carnival committee through your columns. I think it would be fine to have corn patterned cloth to make suits just as they had those apple suits at the front Apple Show.

It's had enough to have corn on our feet without having 'em on our backs. Don't you think so, gentle reader?

Miss Dolly Wise.—Will you please tell me through your columns how to take rust off of gas heaters? My stove has been in the basement all summer and have rusted very badly.

A pretty wedding took place last evening at the home of Mr. and Mrs. J. W. Baber, 1831 Seventh street, where Mrs. Baber's brother, Mr. Charles E. Layne, of Ashland, and Miss Ethel Fowler were married at eight-fifteen, in the presence of relatives and a few intimate friends. The impressive Methodist Episcopal ceremony was said by Rev. J. W. Dillon. The attendants were Mrs. Charlotte Layne Devaney, of Ashland, and Mr. Elbert Johnson. The bride wore a handsome gown, of white crepe de chine and carried a cluster of bride roses. The ceremony was followed by delicious ice cream and cake. The happy couple were taken in auto ride with tin-can flying behind. They will leave this evening for their home in Ashland, Ky. Those present were: Mr. and Mrs. Charles Nagel, Mr. and Mrs. Levi Crookshanks, and daughter, Gaynelle, Mr. and Mrs. John Ratliff, Mr. and Mrs. Elva Johnson, Mr. and Mrs. Frank Bryan and son, Henry, Mrs. Earl Glendon and daughter, Beatrice, Mrs. John Ratcliffe, Mrs. Minnie DeLong, of Hinton, W. A Grateful Girl—I do not think white broadcloth would make a very serviceable dress. Why not get some pretty soft light material or combine two colors. The broad cloth you have could be worn with most any color. They are not showing white hats now, but they will probably be worn some later in the season. You could wear rose, red, cream, lavender or pale green very nicely.

Lacy—I do not think there is a harmless remedy in existence that will do the work, at least I have never heard of any. I do not know anything about the one you mentioned, therefore cannot advise you one way or the other.

Claim Gun Was Pointed At U. S. Officer, Arrests To Follow

Samuel Lockhart and son Henry of Pond Run nine miles south of Portsmouth, were charged with a serious offense, interfering with a U. S. officer, in Squire Byron's court Friday afternoon by George C. Crish, a U. S. government inspector.

Crish was in charge of the U. S. inspection boat, the "Iroquois," Friday morning and he and his assistants were engaged in remov-

ing rubbish from the Ohio river bank in the vicinity of the Lockhart home.

Crish claims that the elder Lockhart sent his son to the house for a loaded shotgun, and after he returned with it, stationed himself on top of the bank, and threatened him and his men with death if they removed any brush or rubbish from the bank adjoining his farm.

His threat had the desired effect, for work was stopped immediately. Crish got into communication with the U. S. authorities at Cincinnati, who advised him to swear out a warrant in a local justice's court as there is not a U. S. commissioner in this city.

Deputy Sheriff Rome Arthur left Friday afternoon to place the two men under arrest. The penalty for interfering with a U. S. officer is a severe one, the minimum being six months in a U. S. penitentiary and \$500 fine, and the maximum \$5000 fine and six years' imprisonment.

JURY HAS CASE

At 1:45 o'clock Friday afternoon the case of John Savage against R. S. Pritchard, a suit for \$2500 damages, was given to the

jury, the court concluding its charge at that time. Attorneys concluded their argument at noon. The trial started Thursday morning at 9 o'clock.

125 DECORATING CONTRACTS

Charles Dixon, who is securing contracts from local firms to decorate their places of business for the Korn Carnival stated Friday that he had already received more than 125 contracts and would begin decorating some of the buildings next week in order to have all the work done in plenty of time for the opening of the Carnival.

LAST TRACES OF APPLE SHOW ARE REMOVED

The Ironton Irontonian Friday said:

"The last traces of the Apple Show so far as building material, booth covers, etc., is concerned, were removed yesterday by the Lynd Transler and Storage company and the material will be kept stored away until next year's show."

"The removal of the booths and canvas was necessarily slow as many of the booth holders were slow in removing their exhibits and the heavy rain that occurred during the removal of the canvas made it impossible to take in this cover until it had dried thoroughly or it would have been absolutely worthless next year."

Appeals To Americans To Aid Armenians

Washington, Sept. 24.—An appeal to the American people for

contributions to relieve Armenians in Turkey banished to isolated towns for alleged hostility to the Turkish government soon will be issued from New York by the American Board of Commissioners for Foreign Missions. The appeal will be based upon a report from Ambassador Morgenthau at Constantinople to the board.

Representatives of the board have conferred with state department officials regarding the plan for assisting the Armenians. The American government, however, will take no part officially in the plan, the understanding being that Turkey has indicated it will not permit interference with its policy from any foreign power. The American government's protest through Ambassador Morgenthau to Turkey against alleged ill treatment of Armenians brought about minor concessions, but this government has taken no further action. Turkish officials asserted that the steps against Armenians were necessary as a war measure to prevent rebellion and plotting against the government.

No Bids Received

Ironton, O., Sept. 24.—No bids were received today for \$100,000 of four percent waterworks bonds the rate of interest evidently being deemed too low. Spitzer, Rorick & Co., of Toledo, offered a bid of \$2,010 premium if the interest was made 5 per cent, while J. C. Mayer & Co., of Cincinnati, offered a deal privately for the issue if no bids were received. It is likely the bonds will be re-advertised at 5 per cent after the legislation for the issue is again enacted.

CONFERENCE POSTPONED

Washington, Sept. 24.—Conferees here between state department officials and representatives of Chicago packers seeking relief from the British prize court order which confiscated \$15,000,000 worth of their products have been postponed, it was announced today until the department is in possession of full official text of the decision. The text must come by mail and is not expected for at least ten days.

MUCH IRON ORE IS RECEIVED IN TOLEDO

Toledo, Sept. 24.—More iron ore has been received here the last week than during any similar period in several years. More than 85,000 tons have been received at this port in six days.

All the ore was brought in an American-owned boats. The greater part of it is from upper lake ports on the American side. Freight rates on the Great Lakes are said to be advancing daily with the result vessel owners are reaping a harvest.

BULGARIAN SHIPS SEEKING SHELTER

Athens, Sept. 23.—(Via Paris Sept. 24)—Diplomatic circles here have been informed that Bulgarian warships which were stationed at Varna, on the Black Sea have sought shelter in a neighboring bay. Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports. The valuables of the branches of the National Bank at Burgas and Varna have been removed to Sofia.

The belief has been expressed in Bulgaria that if that country arrays itself on the side of the Teutonic Allies, Russia would attempt an invasion through the port of Varna, 30 hours sail from Odessa, although it is strongly fortified.

CONDEMNS BULGARIA

Petrograd, Sept. 24. (Via London)—M. Guichkoff, president of the Slav committee of Moscow, sent telegrams today to Dr. D. S. Danoff, former Bulgarian premier; M. Geschow, for Bulgarian minister at Berlin and other Bulgarian statesmen in which he said that if Bulgaria should join with Germany her action would be crime unparalleled in the history of nations. Russians were unable to believe, said M. Guichkoff, that Bulgaria, "liberated from the Turkish yoke by Russia, contemplated joining Germany, the inveterate enemy of the Slav race."

MAIL DELIVERY IN VILLAGE TRIED OUT

BULGARIA SURE TO FIGHT, SAYS PAPER

Rome, Sept. 23.—(Via Paris, Sept. 24)—Even if Bulgaria has not definitely agreed to side with the Central powers," says the Giornale D'Italia, "it undoubtedly has augmented the tension with the Quadruple Entente."

If Bulgarian mobilization does not mean an immediate invasion of Macedonia or an attack upon Serbia in the rear in the case of an Austro-German rush through the Balkans the most optimistic explanation is that it is an attempt to blackmail the allies to press Serbia to make further territorial concessions as the Bulgarian ideal is to obtain Macedonia and Thrace without going to war.

"Greek mobilization probably will be followed by similar steps in Rumania. These may be only precautionary measures, especially as Greece is not inclined to consider even an attack upon Serbia as a cause for war, maintaining that the Greco-Serbian alliance ceased to exist when Serbia consented to make territorial concessions to Bulgaria while the object of the alliance was to avoid any alteration of the boundaries established by the treaty of Bucharest. Greece also maintains the alliance did not consider the possibility of a war in which the European powers would participate."

THREE POLICEMEN INJURED IN RIOT

New Britain, Conn., Sept. 24.—In a clash with strike rioters at the factory of the American Hardware Corporation here this afternoon, three policemen were injured by flying bricks and stones hurled by the rioters. One E. K. Gellinger, had his jaw broken. The other two were not badly hurt. It was at first thought that one of the officers had been shot, but this was later denied at police headquarters.

RUSSIA WON'T GET SHARE OF BIG LOAN

New York, Sept. 24.—Both parties to the proposed big credit loan to Great Britain and France were reported to be negotiating today on the basis of \$500,000,000 as the maximum amount.

The Anglo-French commission, it was said, was still inclined to insist that the loan should be greater than this amount; American financiers were reported to have informed the commission pointedly that this sum would not be exceeded.

Russia appeared to be out of negotiations as a participant. If it should appear necessary that she, too, establish a credit here, it seemed likely that independent arrangements would have to be made for her. Final decision on this point, however, was said to be deferred until such time as definite word should reach New York from Pierre L. Bark, at present believed to be in London conferring with Reginald McKenna, chancellor of the exchequer.

New York, Sept. 24.—Alexander Bohn, president of the Russian-American chamber of commerce, started today a movement among American trade and commercial organizations looking to the organization of an international chamber of commerce in which business houses of both the United States and Russia may become members. Mr. Bohn came here on the interests of the Russian business men to extend the trade between the two countries and to aid in overcoming the obstacles which now hamper it.

JOHN D. ARRIVES

Splendid Reception Tendered Pastor And Wife By Brotherhood

Rev. W. T. Gilliland and wife of Manly church will remember for a long time to come the very cordial reception tendered them Thursday evening by the members of the Young Men's Brotherhood of the church. The reception was a welcome to Rev. Gilliland who has been returned to Manly church for another year.

It was held in the church basement which was beautifully decorated with flowers of all kinds. Several hundred church members gathered to welcome the pastor and his good wife.

The opening of the evening's program was a welcoming address by E. F. Rideout, teacher of a Bible school class of Manly. Following Mr. Rideout Miss Mary Sprecker played a piano solo. One of the chief speakers of the evening was Rev. Archibald Gilruth, retired pastor of Winfield, Kansas. Rev. Gilruth who was formerly missionary to India, was the first appointed pastor of Manly church, he having charge of the pastorate in 1893.

Rev. I. L. Magee, district superintendent, also delivered a few welcoming remarks. Miss Atlanta Willis rendered a beautiful vocal solo. The closing numbers of the program were responses to the welcoming remarks by Rev. W. T. Gilliland and wife.

A very enjoyable social hour followed the program. The refreshments consisted of pie and coffee. The Young Men's Brotherhood were assisted by the members of the Woman's Foreign Missionary Society of which Mrs. W. T. Gilliland is president.

PORTSMOUTH DELEGATION IS A HIT AT CHILLICOTHE

The Elks' excursion to the fall festival in Chillicothe Thursday evening was a success, about 400 boarding the special here that left the N. & W. depot promptly at 6:15. Returning there were about 500 on the train, many persons returning home after a day or two visit to the festival. The trip going was made in one hour and eight minutes. The special consisted of nine coaches and was in charge of Trainmaster G. F. Turley and Passenger Agent R. E. Scott.

The trip was fraught with pleasure all the way and words of praise were heaped upon the shoulders of the N. & W. officials for the capable and speedy manner in which they handled the excursionists.

Shortly after the special halted in Chillicothe the River City band lined up on Main street and the Portsmouth contingent 500 strong marched to Fifth street and past the reviewing stand on this street. The band and marchers were cheered all along the line and the Portsmouth crowd whooped up things in great shape.

The fall festival is one great big show. There are the usual number of exhibits and all were inspected by the thousands of visitors that poured into Chillicothe all day Thursday.

The River City band rendered one of its delightful concerts near the Elks' home last night and it was enjoyed by a monster crowd. The band played a number of pieces on the return trip and those who made the jaunt to Chillicothe enjoyed every minute of it. Dancing was indulged in at the Elks' home and many Portsmouth people were found there gliding over the polished floor.

MISTAKE ABOUT COMPLAINT

Sommer Bros., hardware dealers, say the published report that they made complaint to the police about rough boys interfering with

their trade is a mistake and there must have been a confusion of names on the part of Chief Allen.

KIDS WERE "SEEING" THINGS

School children were responsible for the vacuum house of the late Major for a couple of "wild goose" chases on the part of the police Thursday afternoon.

A little boy rushed into headquarters and breathlessly reported to the chief that he had seen a man and a young woman in a lower fourth street home with husband to the owner. But found his head cut off and had heard foot not the slightest sign of any drops in an adjoining room. Officer order.

Ray Moore was quickly located and the boy was directed to accompany him to the scene. He led Moore to soils fertilizer of quality. 24-2

Had Good Time At Fun Social

Two hundred men laughed themselves through the fun social at Trinity church Thursday evening, which lasted for an hour and a half. This was the first social evening of the season, and the program, "Musical and Recital," with Prof. Appel as ringmaster, proved to be an enjoyable vehicle. The ringmaster was continually cracking his whip of witticisms about the ears of the performers, much to the delight of the audience, and to Prof. Appel belongs the praise for the great success of the program. His jokes, stories and repartees made huge enjoyment for the men.

Mr. C. C. Bennett, after surviving the ringmaster's introduction, which amused the crowd, Merle Hood played "Darling Nellie Gray."

fun and laughter, acquitting himself splendidly, as he always does. Then P. V. Davidson responded with a Jew's harp solo, but was unceremoniously dragged off the stage with a big hook when he attempted to force an encore upon the audience. Sam Crawford attempted to render "Listen to the Mocking Birds" as a French harp solo. Some miscreants (probably Vernon Davidson, Merle Hood and John McMillen) threw cabbage at him. Sam dodged and the cabbages hit Ringmaster Appel, who was innocently and foolishly sitting close by. An encore on the program was not even thought of.

Prof. J. H. Finney then told of the funniest experience he ever had, which amused the crowd. Merle Hood played "Darling Nellie Gray."

on a cove and as per prearrangement (unknown to Merle) he received no applause, and since he was billed for an encore, was promptly voted out of order, and his much-rehearsed encore, "Fun's All Over," went by the boards. Mr. M. H. Shumway, Walter Watson and Rev. Strecker responded with stories that had made them laugh, and the musical was brought to a close with a few's (Lep and French Harp contest, in which Mr. Brooks won the first prize, a corn-stalk fiddle, and M. H. Shumway got the booby prize, a 1914 calendar. The performance ended with a buffet lunch.

A PROMINENT ORIENTAL STATESMAN

who has been traveling through the United States, was recently interviewed in Washington and was asked: "What most attracted your attention while observing America?"

The quick answer came: "It's the frequent use of the word 'Get'." "You get here—you get there—you get wise—you get on—you get off—you get—get—get all the time." That's what he said about us—Americans.

As for ourselves, we endorse this statement, every word of it; for "Getting" is our business. Getting the trade—getting their confidence—getting their good will—GETTING THERE!

And we've "got there." It was not by child's play either. We had to wade through competition—plenty of it—but the best purchasing capacity, the best prices, the best and quickest service combined make the best and biggest factor for success. And we got it.

Now you'll know why "The Fashion" has made its mark right from the start and is recognized today as one of the leading stores in Portsmouth.

We have adopted every idea, every method of proved value in order that our patrons may enjoy the best possible service; that is even better than you might reasonably demand. Fair criticism of our service, our goods and our business method was always invited. In fact, we are largely dependent upon such criticism for the correction of errors and improvements of our methods.

When we received criticism or complaint we not only adjusted the difficulty specified, but we investigated the cause of the complaint and at once took steps to make a repetition of the same trouble unlikely.

Our patrons expect the best service, the best treatment; we desire to give all these and more. We have endeavored to make the above statement so clear that you'll fully understand our purposes and will feel free to bring any faults to our attention and be assured of prompt and satisfactory action.

Not in regard to values, our competitors wonder how we can afford to sell merchandise of the quality and style we handle at such reasonable figures.

"Impossible," said some; "it can't be done," said others. We have proven that it can be done, without any "ifs," "ands" or "buts", and in the proving, have shown what youth and determination can accomplish. We have followed out the policies that we originally laid down, with the result that we count right among those stores today, that have taken others years to establish.

If you question our ability to produce high grade garments with more style and get-up than found elsewhere, at a cost from \$5.00 to \$10.00 more than we charge, make it your business to see our line and test out what we've got to offer.

You'll find an early visit to our store a most enjoyable event. It will give you the opportunity of being among the first to see and examine our beautiful Exhibit of Women's and Misses' Apparel for Fall and Winter Wear.

We would deem it a pleasure to have you call. You'll receive every attention and accommodation possible, and we assure you that you'll find the display most interesting.

True Secret of Keeping Youthful Looking

(The Beauty Seeker)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these organs in the system, polluting the blood and lodging in various organs, tissues, joints. One becomes dabby, obese, nervous, mentally sluggish, dull-eyed, wrinkled and sallow of face.

"But to get our bowels working as they ought, without producing any after-effects, has been the problem. Fortunately, there is a prescription unquestioned merit, which may now be had in convenient tablet form. Its value is due largely to an ingredient derived from the humble May apple, or its root, which has been called 'vegetable calomel' because of its effectiveness—though, of course, it is not to be classed with the real calomel of mercurosal origin. This is a non-forming constituent in 'scatol' tablets—that's the name—and there are no after-effects, no weakness, no depression. On the contrary, these harmless vegetable tablets tend to impart tone and elasticity to the system, and thus ward off the ailments of old age. Scatol tablets, which may be procured from any druggist—a druggist's word will do—it gives a revelation to any constipated, liver-troubled person."

Chief Cause of Pimples, Blotches, Sallow Skin

(Messenger of Health)

Unightly eruptions, pimples, boils, blotches, sallow or muddy skin, usually are due to a sluggish liver, a constipated bowels and a polluted blood stream as a consequence. How foolish in such cases to resort to outward applications, which can never have natural, permanent results. If more people only knew that there is a very simple remedy to be found in the drug store, which is as effective as it is harmless and quick acting. It is an old remedy, long recognized by the medical profession, which has been put in tablet form, and cost no more than one needs to be deprived of its wonderful benefits.

"Scatol tablets"—that's the name—are entirely vegetable and there's no habit-forming ingredient. You need only get about dinner's worth and swallow them at bedtime to realize there's nothing else so good for the purpose. The action in the morning is so easy, so comfortable, and instead of a weakening after-effect, you feel truly refreshed and invigorated. Scatol tablets are not only the most recently known for constipation and sallow skin, but offer the same sure, reliable, and safe treatment for the difficulties of the character mentioned.

Great Demand for New Constipation Remedy

They say that the advent of the "scatol" tablets as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit particularly with those afflicted with chronic constipation, who were quick to recognize its advantages over calomel and the usual laxatives.

"Scatol tablets," adds their efficiency, are not only a most effective remedy for a tendency to slumbering, but also, instead of the membranous lining of the organs involved, they exert a healing influence on the intestinal wall. And they work so easily and gently, they are a course preferred on this account to the violently acting purgatives. Their inaction is another reason for the popularity of scatol tablets. One need procure only a druggist's worth, and take the tablet upon retiring, to be convinced that the latest remedy for constipation, tired liver, and their many evil consequences, has finally been found.—Druggist Review.

Thought Doctor's Auto Was Stolen

The fact that Dr. Chellis Dawson, of New Boston, changed his mind about not trying out his new Overland car for a trip to Chillicothe threw a big scare into Mrs. Dawson and caused quite a flurry about police headquarters for a time Thursday evening.

Dr. Dawson had planned to accompany Mrs. O. W. Robe and W. D. Schaefer to the Chillicothe fall festival and it was deemed inadvisable to use his new car over the temporary roads. He telephoned to Mrs. Dawson that he would not be home for supper. She and a girl friend accordingly decided to come down town for lunch at a restaurant. They saw the doctor's car standing in government square as they entered the restaurant but when they emerged from the place were astonished to find it gone. Believing the car had been stolen Mrs. Dawson and her friend hurried to police headquarters and reported the fact. The patrolmen were detained long after roll call pending efforts to secure the license number of the car. Sergeant James Marshall called up F. E. Bower, local agent

of the Overland company. He was unable to recall the license number but furnished the officer with the serial number of the car, then inquired if anything had happened. When told of Mrs. Dawson's fears he relieved everybody present by declaring he had passed the doctor on Chillicothe street an hour before in his new car and headed towards the pike. Laughing heartily the young women hurried away fully convinced that they were either the victims of some practical joke or a sudden change of mind on the part of the doctor. Mr. Bower met them with a machine and saw them safely back to New Boston.

Was Not Murder

Positive identification of the body of the dead man found floating in the Ohio river near the wharfboat at Greenup Thursday morning by Wharfmaster William Wesson, was made by means of a pair of blue trousers the dead man wore, the color of his hair and two gold teeth, the victim proving to be Eldo Bigley, a night watchman, who was employed on a boat at Racine, O.

A jury impaneled by Sheriff William Arthur, of Greenup, Thursday afternoon, made an investigation of the circumstances surrounding the finding of Bigley's death and after the testimony of several witnesses was heard and the man's body thoroughly examined, a verdict of accidental drowning was returned. According to Sheriff Wm. Arthur, no marks whatever were found on Bigley's body and he says he does not place any credence in a theory of murder. There were no stab wounds, no bruises on Bigley's body, no gunshot wounds, and Greenup officials believe that Bigley met death by accidental drowning.

It had been reported that evidence of assault were found on the body of Bigley, who, it is supposed, slipped off a gang-plank and plunged to his death in the Ohio river.

Bigley's body was claimed by his brother, William Bigley, of Racine, O., Thursday night, and it has been shipped there for burial. Thirty-nine dollars were found among the dead man's effects, and if he was a victim of foul play, robbery was not likely the motive that prompted the deed.

Endorse Brock

At a meeting of the Second Ward Republican Club, held on Thursday evening in the law offices of Osburn and Gastin in the Turkey building, Thomas Brock was endorsed as a candidate for the Second Ward to succeed Chas. Miller, who has moved out of the precinct.

Members of the club present pledged themselves to aid in the success of the Republican ticket at the coming municipal campaign. The next meeting will be held Thursday evening, September 30, when reports of the members present will be made.

Jackson Plans For Magnificent Festival

The city of Jackson, the home of the latest Fall Festival in the state, is already active in preparations for that big event.

There is not a festival to compare with it in Southern Ohio and its initial attempt last year was the greatest thing every attempted along that line. The week of September 27th is the date, and Jackson is getting ready to take care of thousands of visitors. Greater things are promised this year on account of the combination with Chillicothe and Ironton and some of the very highest class entertainments and shows obtainable have been secured for that week. From the opening on Monday, September 27th, until the close on Saturday night there will be something doing every minute and Jackson invites you.

"Satan Day" the great aerial

artist will make two flights daily over the city at the Fall Festival at Jackson during the week. Mr. Day will do all the fancy stunts that are known to the art of flying. Automobileists who attend our Fall Festival will find plenty of convenient space to park their cars.

Remember, the Fall Festival Committee of Jackson, extends to the people of your county a most cordial welcome and want you to come. Long lines of booths along the streets will contain displays of all goods manufactured and sold in the city. Jackson's last year's display of fruit was No. 1 of them all and this year the prospects are, that the fruit and produce will be even larger. Every day is a big one and Jackson wants you.

PORTSMOUTH Message No. 5

To the Business Men of Portsmouth
The prosperity of a city is in direct proportion to the local pride. Where local pride runs high, prosperity has a firm foothold. Such a town is a good place to live and do business in.

Paint helps to a remarkable degree in spreading an impression of prosperity throughout a community. It gives a fresh, new, inviting look wherever it is used. Municipal buildings, stores and homes feel its good effects. Growing business is bound to be one of the direct results of a liberal use of paint, not from any magic in the paint, but because of the pride which is stimulated.

Poor Polly

The West End went into mourning Friday afternoon when it became known that Polly Freshel had died.

Polly was the pet polt parrot that for the past fourteen years had been a familiar figure at the Palace cafe and restaurant. The noted bird was purchased of Lew Gilgen when he operated the Washington hotel barber shop. Henry Deering, the colored utility man at the Palace, was delegated to give Polly a decent burial.

Selby Shoe Worker's Statement

**Causes Discussion As To Why
Many Factory Workers Are
Only About Fifty Per-
cent Efficient**

By good authorities, the claim is made that most of the ill health of today is due almost entirely to those habits which best distinguish the white man from the savage of the jungle. Also, that nine times out of ten it is the result, more or less, of a weak, disordered stomach, and nine times out of ten these disorders are due to too much eating and drinking, and not enough outdoor exercise and air.

Mr. Fred Bender, an employee of the Selby Shoe Co., makes the following interesting statement in this connection: "No doubt it is mainly due to the fact that I do not take the proper amount of exercise in the open air, that I have had stomach trouble, and its kindred ailments. Since Tanlac has been here I have been taking it, and it seemed right from the start to be the kind of medicine that I needed. My digestion has greatly improved, and I am relieved of constipation."

Tanlac, which is giving relief to such a great number of people in Portsmouth and vicinity, is made mostly from roots, herbs, and flowers gathered from many of the remote parts of the earth. The medicine attains its high efficiency by the personal direction of Joseph Trimbach, a native German chemist of note.

Tanlac has proven wonderfully effective in cases of stomach, liver, kidney and intestinal ailments, as well as catarrhal affections. It is aptly called the "Master Medicine", and is sold in Portsmouth at the Fisher & Streich Pharmacy, Sixth and Chillicothe Sts. Adv.

MORE FUNDS NEEDED

At the meeting of the school board tonight, ways and means will be devised whereby Supt. Frank Appel will have the necessary funds to buy necessities in his office, supplies needed in the manual training and chemical departments and janitor's supplies. There is no money available for this until the advance draw is made in December, and an effort at tonight's meeting will be made to provide funds to look after these needs.

The fugitive negro is said to have had his gold tooth extracted and substituted a wig for his natural hair, since learning that he is a badly wanted man.

MARSHALL IS INDICTED FOR MURDER IN DYNAMITE CASE

The first of the secret indictments returned by the recent grand jury was made public Friday afternoon when Albert Marshall, colored, arrested several days ago on suspicion of being implicated in the dynamiting of the railroad shack near Sciotoville, was arraigned before Judge Thomas on a charge of murder.

The court passed the case for the present, and Marshall will be required to enter a plea next Monday morning. Geo. W. Sheppard and Mark A. Crawford were appointed by the court to defend him, and the continuance was

granted in order that the accused man might have a chance to consult with his attorneys.

Marshall was indicted on ten different counts, each for murder, five by himself, and five jointly with an accomplice, whose name was not divulged. Five men were killed in the explosion, and an indictment was returned in each case.

Damage Suit Heard; Interpreters At Work

Use of interpreters was required in the hearing of the \$1000 damage suit of Mike Sone against the Sheridan-Kirk Co., which opened in common pleas court on Friday afternoon at 2:30 o'clock before Judge Thomas and a jury. The majority of the witnesses are foreigners, and are unable to speak or understand the English language. Each side has an interpreter.

Sone is seeking a bail of \$1000 for personal injuries which he claims to have sustained while in the employ of the defendant, and for which he holds the defendant responsible. He claims that he was one of ten men employed by the defendant on a government dam at Racine, O., on Sept. 14, 1914, who were required to carry a heavy oak timber, 14 feet long and one inch thick, under a shaft. They were compelled to stoop to get under the shaft, he says, and in such positions were unable to carry the timber, which he says fell on his left hand, lacerating his second finger so badly that it had to be amputated.

Quick work was required to secure a jury, since the regular jury was considering the evidence in the Savage-Pritchard case. Wylie A. Kates the court bailiff, recruited the following jury in a jiffy: J. B. Adams, Fred M. Pride, William J. Bennett, Floyd

A Simple Way To Remove Dandruff

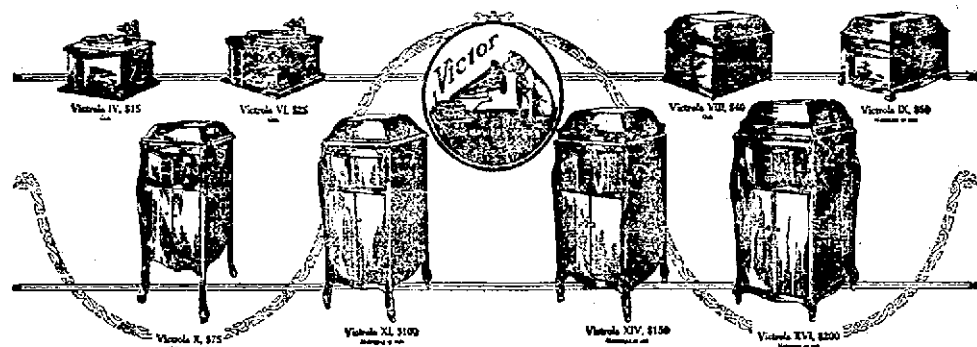

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

FAKE MILLIONAIRE WHO BOUGHT AND BORROWED IS SENT TO WORKHOUSE

The activities of William Briggs, the so-called "jimmy millionaire," who created such a furore here a few months ago are recalled by the operations of the past couple of days of R. P. Smith, alias Franklin Miller, aged 34 years, a railroad fireman, who came to grief Thursday afternoon.

Smith is the stranger who separated Dr. Carl Braunlin from three dollars cash Thursday noon and developments in his case came thick and fast after the

young physician caused his arrest and detention at New Boston a few hours later.

"I'm guilty, I'm guilty, mayor," do with me what you please," exclaimed Smith as Officer Ray Moore marched him into police headquarters. A half pint of whiskey was found on him but he did not appear to be very much under the influence of liquor.

**My But He
Could Order**

It was soon learned that Smith had emulated the "jimmy millionaire's" stunt of placing wholesale orders promiscuously about town. He ordered \$100 worth of goods of the Gilbert Grocery company, several carloads of lumber of the Leet Lumber company, 400 five cent loaves of bread and 100 pies of Adams Bros., besides placing a big order for beans, potatoes, evaporated milk, pickles, meats and sundry goods of Neudorfer & Silex.

At the end of his hearing Smith was fined \$25 and given 90 days in Cincinnati workhouse.

**Went To Home
of Wholesaler**

Smith called at Lawrence Neudorfer's home, it was learned Wednesday night about 10:30. Mr. Neudorfer had just started to turn out the lights preparatory to retiring for the night when the knock was heard. The thin, portly looking young man at

once introduced himself as an agent for one of the railroad contractors at Sciotoville. He was ushered into the house.

He asked if Mr. Neudorfer had a desk, stating he wished to sit down and write out his order. Once he was seated he began rolling a cigarette. Mr. Neudorfer protested that he did not permit any cigarette smoking in his home. He apologized and began talking business. He read off from a list the consignment of goods he wanted shipped next day to S. K. Kimbrough, Sciotoville. Mr. Neudorfer took the list and asked the man to call at the store next morning and arrange for the shipment.

**Just Too Bad, He
Needed Hotel Money**

The stranger suddenly remembered that he would have to spend the night in the city. He said he had expected to go out on the midnight N. & W. train but would have to remain. He asked the loan of two dollars for hotel expenses. Mr. Neudorfer told him he had no money. The man then asked for a couple of street car tickets so that he could get down to the business district and raise some money. Mr. Neudorfer finally gave him a nickel and he left.

The next morning Smith or some confederate called up Neudorfer & Silex's store and inquired if the goods had been shipped. He was told that they had not and what was more would not be shipped until paid for. The same answer was given to him by the Gilbert company when he called up there.

**Leet Company Men
Make A Donation**

He went to the Leet company's office in person and inquired if the lumber had been started out yet, declaring he was anxious to get an early start in erecting sheds, etc. He succeeded in borrowing \$1.75 from the office employees there.

Smith next visited the Adams Bros. bakery on Offshore street and placed his order. He told of the vast size of his camp and the great number of men employed and said his next duty before returning to Sciotoville was to employ a doctor to look after the medical work there. He said he was on his way to see Dr. Smith. Mr. Adams suggested to him that his family physician, Dr. Braunlin, would prove an excellent man for the job and offered to take him to Dr. Braunlin. Smith accompanied him to Dr. Braunlin's office where he talked for some time about his affairs. He engaged Dr. Braunlin and then discovered he had left his pocketbook behind and asked him if he could spare a few dollars.

**Dr. Braunlin Is
A Cheerful Giver**

Dr. Braunlin found he had a five dollar bill and three one dollar bills in his pocket. Smith asked for the five spot but Dr. Braunlin felt he himself needed that and finally risked loaning the three dollars to him, he agreeing to pay back the amount next day.

After he departed he called up the various Sciotoville contractors and found Smith was not known there. On the advice of his father-in-law, Mayor Adam Frick, he

later started on a hunt for him. Going to New Boston he reported the facts to Mayor Sam Davis and just as they were talking he saw Smith going from one saloon to another. He was asked by the mayor to accompany him to his office.

**Smith Became
Real Indignant**

Smith became very indignant, protesting that he was a superintendent of the C. & O. Northern railway and wanted to get in touch with his lawyer, who he said was Attorney Nate B. Gilliland.

Dr. Braunlin insisted upon being allowed to talk with Mr. Gilliland first. Mr. Gilliland told him that Smith had been in once to see him about a case but that he had not entered into any arrangement with him. He was then ordered held by Mayor Davis and later was turned over to the Portsmouth authorities.

**Got Names
At Y. M. C. A.**

E. P. Hideout, superintendent of the R. R. Y. M. C. A. building at East Portsmouth, called at the mayor's office after court and threw some light on how Smith secured the names of Portsmouth business men.

Mr. Hideout said Smith came to the Y. M. C. A. a few months ago and asked the privilege of examining the night register, claiming he wanted to prove an alibi with it. The leaflet was loaned to him and he returned it next day. He then wanted to borrow some money but was refused. Mr. Hideout said he gave him a few street car tickets. During their conversation Smith asked him the names of the various Portsmouth firms of which the Y. M. C. A. here purchased its supplies.

It is learned that Smith also placed a \$50 order with Pitch Bros. at New Boston for meats

but they sized him up as a fraud. He is also said to have caught a New Boston grocer for \$2.

**Had Been At
State Hospital**

Papers found among Smith's effects showed that he had been confined in the state hospital for the insane at Columbus for sixty days and had also been imprisoned at Catlettsburg, Ky., last July.

Smith was arraigned in police court Friday on a charge of obtaining money under false pretenses from Dr. Braunlin. He readily entered a plea of guilty and waived a jury trial.

**Had Been On A
Protracted Spree**

Smith said he had been on a protracted spree, coming to Portsmouth on Tuesday. He said he was a locomotive fireman and had sought employment with the N. & W., but failing to secure a job began making the rounds of New Boston saloons. There he met a low heavy set man, who claimed to be a steam shoveler, and he believed it was this fellow who put him up to ordering goods and extracting money.

He said he was a native of Elkins, Randolph county, W. Va., but had no home or relatives.

He said he had been arrested at Catlettsburg for alleged borrowing a dollar from some man and failing to return it but had proven his innocence. He said his confinement in the Columbus hospital was only to get liquor out of his system.

**Chance To Do
Some Work**

The mayor reminded him that business men were entitled to protection. He believed that the defendant was in his right mind when he carried on his operations and for that reason fined him \$25 and costs and sentenced him to 30 days in the Cincinnati workhouse.

GREECE GETTING READY FOR WAR

RUSSIA WON'T GET SHARE OF BIG LOAN

New York, Sept. 24.—Both parties to the proposed big credit loan to Great Britain and France were reported to be negotiating today on the basis of \$500,000,000 as the maximum amount.

The Anglo-French commission, it was said, was still inclined to insist that the loan should be greater than this amount; American financiers were reported to have informed the commission pointedly that this sum would not be exceeded.

Russia appeared to be out of negotiations as a participant. If it should appear necessarily that she, too, establish a credit here, it seemed likely that independent arrangements would have to be made for her. Final decision on this point, however, was said to be deferred until such time as definite word should reach New York from Pierre L. Bark, at present believed to be in London conferring with Reginald McKenna, chancellor of the exchequer.

Russians In China Called To Colors

London, Sept. 24.—All eligible Russians in China have been called to the colors under the most recent ukase, according to a Peking dispatch to the Exchange Telegraph Company. It is reported that Harbin and Vladivostok will soon be denuded of men of military age.

An Imperial Ukase was issued at Petrograd September 16 calling to the colors reserves of the territorial army. The senate was instructed to determine the ages and the numbers of the reserves and the districts from which they should be called.

ARCHIBALD WONT BE PROSECUTED

Washington, Sept. 24.—James F. Archibald, the American who acted as messenger for Dr. Conradin T. Dunn, Austro-Hungarian ambassador here, probably will not be prosecuted by the department of justice. Examination of the papers relating to Archibald's activities has not been completed by the department, but some officials say there is no statute covering the case. As a result of the incident, however, it was said that congress would be urged to enact a law to cover such cases.

French Soldiers May Get Five Cents A Day

Paris, Sept. 24.—The army committee of the chamber of deputies has decided to recommend that the pay of French soldiers be increased from one cent to five cents a day as from July 1, 1915. This change would mean an increased expenditure of about \$25,000,000 a year.

LEGISLATORS OPPOSE M'DERMOTT LAW; O. K. GERRYMANDER

Chattanooga, Tenn., Sept. 24.—Surfeited with their three day's experience as guests of the citizens of Cincinnati, the Ohio legislators and their ladies started out today for the fourth day's pleasure. The day will be occupied with visits to the famous battlefields of the civil war at Chickamauga, Lookout Mountain, Signal Mountain and Missionary Ridge; a reception by citizens, trolley ride and dinner. Representative Norman R. Bliss, of Cleveland, started a movement on the train yesterday for holding the next reunion at Cleveland.

Senator Charles C. Coss of Ottawa, author of the bill appropriating \$20,000 for a monument to Ohio soldiers in the civil war on the Chickamauga battlefield, today assembled the members at the site selected and called attention to the provision of the bill.

Captain Ira I. Morrison, index clerk of the senate, said: "The arrangements on this trip only reflect the efficiency of organization. I'm going to take a night off when I get back to Columbus to see if I can discover anything that has been overlooked by your committees."

There were several straw ballots taken on the train. One showed that 59 members of the assembly are opposed to the McDermott Liquor License Law and 37 in favor of it. A similar vote on the Sprague Gerrymannder bill resulted in 51 affirmatives and 41 negatives. Both of these measures will be the subjects of a referendum this fall. There are 232 persons on the trip of whom 78 are women and one child, Bobby Bath, of Columbus, who is the mascot of the tourists.

FRENCH ARE ANXIOUS OVER BULGARIA'S ACT

Paris, Sept. 24.—The Bulgarian situation is absorbing the attention of France to the exclusion of all other topics. Little doubt is felt here that Bulgaria, or rather King Ferdinand, has decided to cast his lot with the Central powers.

"For months," says Jean Herbet, one of the authorities of France on foreign politics, "the Quadruple Entente has been talking to Bulgaria without acting. During the same period Bulgaria has been preparing to act without talking. The time has come when Bulgaria is acting."

Military writers are beginning to discuss the course Bulgaria probably will take. Most of them are of the opinion that she will hurl troops into the upper Morava and Varda valleys in Serbia and then cut the Salonik-Nish railroad near Uskub which would cut Russia off from all communication with her allies, except through Archangel.

It is believed such an eventuality must have occurred to the allied governments and that preparations have been made against it.

While such headlines as "Will King Ferdinand Repeat the Error of 1913?" are common, French editorial writers betray some anxiety at the prospect of an added complication in the struggle for Constantinople.

ANSWERS BULGARIA'S MOBILIZATION ORDER

Paris, Sept. 24 (5:15 a. m.)—Bulgaria having taken certain measures the Greek government has decided to answer these measures by equivalent preparations, telegraphs the Athens correspondent of the Matin.

The dispatch says the decree was published in the official journal. It states that mobilization has been decided upon as a measure of prudence, on account of similar action by Bulgaria. The semi-official newspaper Patris, of Athens says the military measures undertaken by Greece show a decision has been reached to meet Bulgaria's move energetically and without delay. It adds that the intention of Greece is to defend her own rights and to fulfill her duty to support Serbia.

Paris, Sept. 24.—2 p. m.—An official decree for the mobilization of the Greek army was issued in Athens today, says the Athens correspondent of the Havas News Agency. Parliament probably will be summoned tomorrow.

BULGARIA SURE TO FIGHT, SAYS PAPER

Rome, Sept. 23.—(Via Paris, Sept. 24).—"Even if Bulgaria has not definitely agreed to side with the Central powers," says the Giornale D'Italia, "it undoubtedly has augmented the tension with the Quadruple Entente."

"If Bulgarian mobilization does not mean an immediate invasion of Macedonia or an attack upon Serbia in the rear in the case of an Austro-German rush through the Balkans the most optimistic explanation is that it is an attempt to blackmail the allies to press Serbia to make further territorial concessions as the Bulgarian ideal is to obtain Macedonia and Thrace without going to war."

"Greek mobilization probably will be followed by similar steps in Rumania. These may be only precautionary measures, especially as Greece is not inclined to consider even an attack upon Serbia as a cause for war, maintaining that the Graeco-Serbian alliance ceased to exist when Serbia consented to make territorial concessions to Bulgaria while the object of the alliance was to avoid any alteration of the boundaries established by the treaty of Bucharest. Greece also maintains the alliance did not consider the possibility of a war in which the European powers would participate."

Toney Is Some Pitcher
(Nashville Independent).
Fred Toney, a former Bluegrass League pitcher, has won six straight games, and he has not lost since August 23, when the Braves beat him 2 to 0 at Boston, Rudolph shutting out the Reds. He has allowed one run in his last three games, shutting out the Giants and Phillies with ease allowing the Braves a single tally on an error. If Toney can work in five more games in the next two weeks the Reds look certain of copying a place in the first division.

Catarrh a Blood Disease S.S.S. Drives It From Your System

Because Catarrh affects the nose and throat, causing sneezing, itching, stuffage of air-passages and gathering in the throat, it has been common practice to treat Catarrh by lotions, washes and sprays applied to these parts. This mode of treatment is entirely wrong. It cannot give permanent relief, and is liable to irritate and aggravate the trouble. Catarrh cannot be trifled with. It is allowed to run on it will disease the bronchial tubes, settle on the lungs, the stomach—indeed it is a very serious disease. Don't treat it locally. The fact that it causes headaches is proof that it is caused by impure and diseased blood. The one treatment that has proved effective in the treatment of Catarrh is S. S. S., Atlanta, Ga.

Cardinal Gibbons (photographed last week in Washington).

Cardinal Gibbons's interview with President Wilson is considered by the Vatican as the most important event in the campaign for the re-establishment of peace, but the Holy See wishes to have the attitude of Pope Benedict set forth, and therefore has issued a formal statement to the effect that the pope did not send any special message by the cardinal to the president of the United States.

Was Wise Move

It is announced that the Red Sox probably will use the new Braves field for their part of the world's series games—a courtesy which will repay the kindness of the American league in permitting the 1914 games to be played on Fenway park's goodly green.

The acceptance of this Braves' arena shows considerable headwork on the part of Owner Lannin and Manager Carrigan, outside of the bigger money that can be drawn to the mammoth stadium. By using that field the Red Sox will at least partially overcome the huge advantage which the Phils will possess in the bandbox park in Shiptown.

At the Braves' gigantic reservation home runs must be earned; you can't flirt anything over the wall; the big looping flies which Gravano and Lunderus hit for home runs in Philadelphia will be impossible, and the Boston outfielders will settle under them like birds waiting for worms.

Pretty Soft For Niehoff

Should Bert Niehoff pack away a world's series divvy in another month, he can thank the Federal League. The ex-Pirate who was given a trial in 1914 had somewhat minor league experience before he was brought back by the Reds. Last winter he was in negotiation with the Reds. He straddled the thing for a long while, boosted the idea to a limited figure and finally found himself at baseball's both ways. The Reds dropped him like a hot potato and Cincinnati did not want him. By a trick of fate he landed with the Phils.

WHY THE KORN KARNIVAL?

Only a few days will elapse until Portsmouth enters upon what will undoubtedly be the greatest gala event in her history, the third annual Korn Karnival. All of the features are well in hand, and with anything like an even break from the weather man not only will crowds of visitors surpassing by far any previous records come to the city, but these visitors will be astonished and delighted at the various amusements that have been planned for them, at the hospitality that will be lavished upon them, and at the magnitude of the various spectacles which will enliven the different days.

It will truly be a week of gaiety, of jollification and innocent amusement.

But if Korn Karnival history were all written with the above summing up, there might well be occasion to stop and ask the question: "What the use?"

Fortunately back of all the gaiety and display there are vital factors at stake upon which rest the future growth of Portsmouth and Portsmouth-territory to no small extent.

The brainy business men who dreamed the first Korn Karnival and made of it a success, and each succeeding one "bigger and better," saw a vision of the barren hills in Scioto and adjacent territory covered with trees filled with tempting fruit, bringing wealth, health and happiness to many who now have a difficult task in providing the mere necessities of existence.

They saw the grade of live stock gradually growing higher and higher and as a result the increasing size of the stream of gold flowing into the farmer's pocket.

They saw the wider dissemination of ideas concerning intensified farming, the selection of the best kind of seed, and other things which are surely making the farmer the big factor in the prosperity of the nation.

It was to help bring realization of these visions that the prizes have been offered for the best displays of the various products of the soil, for the best displays of stock, for all the things that help to make the farmer more prosperous. For as the community about Portsmouth grows and prospers how can the growth and prosperity of Peerless Portsmouth be checked?

And aside from these highly desirable materialistic results of the Karnivals there is the "get-together" factor, which has become so prominent that it is really one of the big things of the week. This year finds practically a united business interest, a united manufacturing interest, a united labor interest, and various other interests all pulling for one thing with genuine enthusiasm, the success of the Korn Karnival. It can't help but increase the prosperity of the city.

For those who may think they have no part in these affairs it might be well to suggest that they may do a big thing if they take occasion to impress upon each of the visitors they know the fact that Portsmouth stores offer the best bargains and that Portsmouth manufacturers turn out products that are known everywhere as dependable, and are standards for their class.

Let every one have a good time Karnival week, but don't think that it is all for fun and frolic.

HOW ABOUT YOUR LOVED ONES?

When your dear ones are gone, what memories of service to them will you cherish? Are you doing any of the "hundred and one" little things that you have opportunity to do each day, to let them know you love them?

The idea was brought forcibly before us by hearing a conversation concerning a recent death, as follows:

"They say her daughter used to comb her mother's hair every day of the world, and as she smoothed out the tresses she would say, 'Mother you are the sweetest and the prettiest woman in the world.'"

And the mother, whom more than 80 years had left wrinkled, and with faded wisps of hair, would thrill with the truest pleasure imaginable, and shyly answer, "Now dearie, you know better than that."

It is a pretty picture, and a pretty memory for the daughter to cherish is it not? It is the picture of a "love task" faithfully and perfectly performed, which will help lessen the overwhelming grief that death, no matter how long anticipated, brings to those left behind.

Have you any such pictures to cherish?

More or less consuming interest herabouts is centered in the speculation as to whether the Cincinnati Reds will finish in the first division. The man who stands on the First National Bank corner every day, expresses the opinion that the only safe thing to venture about the Reds is that you never know a blamed thing about what they are going to do next.

The man who sits next to us on the street car observed this morning that he had been studying this game of tennis so many people are playing now, and he notices that there is "No love after forty."

These snappy nights bring to mind the fact that we are in the danger zone of the Killing Frost.

AND IT'S NOT A "HOWLING SUCCESS" AT THAT.

Speculation has already begun about the first Peerless baby of 1916. The Times will again co-operate with local merchants in making his arrival an auspicious affair.

MAKE THE ROADS BETTER
 BY JESSE TAYLOR
 Editor of "Better Roads and Streets"

To fix an old gravel or stone road should scarily, harrow, water and roll it. This will at least make it smooth for awhile and the operation is very cheap.

Rural mail and freight by parcel post but not a cent by congress for roads to haul it over. It looks like congress "got the cart before the horse."

And roads make children bow-legged, pigeon-toed, peevish, cross, snail, tired of their young lives and sore at their parents for bringing them into this muddy world.

The proposed increase of eternal revenue on liquors and tobacco with which to build a system of national highways is not a joke, for it is being seriously considered by many men in many parts of the United States.

How long could railroad companies run trains over a system of tracks if no section men were employed along the system to repair and maintain the tracks? The same importance of constant maintenance applies to our public roads.

It is a fact that the freight rate begins at the farmer's door, and if we want reduction in transportation of farm products then the road from the farmer's door must be improved.

Congress of the United States has given material support to everything but a system of national highways.

Will some knocker please stand up and give any reason why the Government should not build a system of national highways.

Sketches of Life in New York City

New York Sept. 24.—Aaron Burr's back yard in the rear of his old home three doors from Broadway on Morris street, was never in such awful condition as it is now—not in a hundred years. When Aaron lived there and he had the Tammany machine from the front room rhododendrons blossomed along the gravel path in the big garden. Also there were hollyhocks.

Whatever you may say of Aaron, he did love flowers, but now! Mercy what a change. To curve the new subway around under Broadway in front of Bowling Green Building the unsentimental contractors have mused things up right where Burr had his biggest posy bed.

Delivers in the historical have visited the spot in the hope of picking up something worthy of preservation as a memento of by-gone time. But the only thing that could be found was an empty beer-keg. It wouldn't look well in the parlor even if a blue ribbon was tied around it so it remained.

You would never believe who is in town! None other than the artist who painted "Nude Descending the Staircase." You remember him? We thought not. His name is Marcel Duchamp. Wouldn't that make a perfectly adorable name for one of the Veranda Boys who mingle with the Scandal Squads on our summer hotel porches?

Marcel blew into town the other day to loaf, dodge the All-Comers War and gossip with our artistic folk. In the spring of 1915, he shocked, grieved and delighted New York with his picture.

Most every reporter in town went to see it and looked for the "Nud". The picture as Marcel later explained, was merely a picture of motion, not of a nude. Many went away cursing softly.

Better Each Day

Better each day that we travel along, Children of sunshine and laughter and song; Bearing our burdens and meeting our care With something that helps us to grin and to bear.

Better each day that we stick to the strife, Manly and free in the fanfare of life; Giving our best to the task and the toil, Firm in our faith of the sky and the soil.

Better each day as we drift to the gleam, Better for all that we do and we dream, That down in the heart of us trust on its throne, Sits waiting for love to come to its own.

Better each day for the battle we face Better for sorrow and better for grace, Better for being true men in the fight, And upright and honest and steady and right.

Better each day for all things as they are, Better that still we may follow the star Of hope and endeavor, of peace and good cheer, To the rest in the realm of love's dreaming, my dear. —The Benutztown Bard.

ANOTHER SHOE STRING MILLIONAIRE IS JAILED

Stranger Who Buys Magnificently Hasn't A Red Cent In Cash

The activities of William Briggs, the so-called "jimmy millionaire" who created such a furor here a few months ago, are recalled by the operations of the past couple of days of R. F. Smith, alias Franklin Miller, aged 34 years, a railroad fireman, who came to grief Thursday afternoon.

Smith is the stranger who separated Dr. Carl Braunlin from three dollars cash Thursday noon and developments in his case came thick and fast after the young physician caused his arrest and detention at New Boston a few hours later.

"I'm guilty, I'm guilty, mayor, do with me what you please," exclaimed Smith as Officer Roy Moore marched him into police headquarters. A half-pint of whiskey was found on him but he did not appear to be very much under the influence of liquor.

My But He Could Order
It was soon learned that Smith had emulated the "jimmy millionaire's" stunt of placing wholesale orders promiscuously about town. He ordered \$100 worth of goods of the Gilbert Grocery company, several carloads of lumber of the Leet Lumber company, 400 five-cent loaves of bread and 100 pies of Adams Bros., besides placing a big order for beans, jellies, evaporated milk, pickles, meats and sundry goods of Neudorfer & Silcox.

At the end of his hearing Smith was fined \$25 and given 90 days in Cincinnati workhouse.

Went To Home of Wholesaler

Smith called at Lawrence Neudorfer's home, it was learned, Wednesday night about 10:30. Mr. Neudorfer had just started to turn out the lights preparatory to retiring for the night when the knock was heard. The fine big portly looking young man at once introduced himself as an agent for one of the railroad contractors at Sciotoville. He was ushered into the house.

He asked if Mr. Neudorfer had a desk, stating he wished to sit down and write out his order. Once he was seated he began rolling a cigarette. Mr. Neudorfer protested that he did not permit any cigarette smoking in his home. He apologized and began talking business. He read off from a list the consignment of goods he wanted shipped next day to S. K. Knabaugh, Sciotoville. Mr. Neudorfer took the list and asked the man to call at the store next morning and arrange for the shipment.

Just Too Bad, He Needed Hotel Money

The stranger suddenly remembered that he would have to spend the night in the city. He said he had expected to go out on the midnight N. & W. train but would have to remain. He asked the loan of two dollars for hotel expenses. Mr. Neudorfer told him he had no money. The man then asked for a couple of street car tickets so that he could get down to the business district and raise some money. Mr. Neudorfer finally gave him a nickel and he left.

The next morning Smith or some confederate called up Neudorfer & Silcox's store and inquired if the goods had been shipped. He was told that they had not and what was more would not be shipped until paid for. The same answer was given to him by the Gilbert company when he called up there.

Leet Company Men Make A Donation

He went to the Leet company's office in person and inquired if the lumber had been started out yet, declaring he was anxious to get an early start in erecting sheds, etc. He succeeded in borrowing \$1.75 from the office employees there.

Smith next visited the Adams Bros. bakery on Offshore street and placed his order. He told of the vast size of his camp and the great number of men employed and said his next duty before returning to Sciotoville was to employ a doctor to look after the medical work there. He said he was on his way to see Dr. Smith. Mr. Adams suggested to him that his family physician, Dr. Braunlin, would prove an excellent man for the job and offered to take him to Dr. Braunlin. Smith accompanied him to Dr. Braunlin's office where he talked for some time about his affairs. He engaged Dr. Braunlin and then discovered he had left his pocketbook behind

and asked him if he could spare a few dollars.

Dr. Braunlin Is A Cheerful Giver

Dr. Braunlin found he had a five dollar bill and three one dollar bills in his pocket. Smith asked for the five spot but Dr. Braunlin felt he himself needed that and finally risked loaning the three dollars to him, he agreeing to pay back the amount next day.

After he departed he called up the various Sciotoville contractors and found Smith was not known there. On the advice of his father-in-law, Mayor Adam Frick, he later started on a hunt for him. Going to New Boston he reported the facts to Mayor Sam Davis and just as they were talking he saw Smith going from one saloon to another. He was asked by the mayor to accompany him to his office.

Smith Became Real Indignant

Smith became very indignant, protesting that he was a superintendent of the C. & O. Northern railway and wanted to get in touch with his lawyer, who he said was Attorney Nate B. Gilliland.

Dr. Braunlin insisted upon being allowed to talk with Mr. Gilliland first. Mr. Gilliland told him that Smith had been in once to see him about a case but that he had not entered into any arrangement with him. He was then ordered held by Mayor Davis and later was turned over to the Portsmouth authorities.

DOCTOR CHANGED MIND, WIFE THOUGHT THAT HIS AUTO WAS STOLEN

The fact that Dr. Chellis Dawson, of New Boston, changed his mind about not trying out his new Overland car for a trip to Chillicothe threw a big scare into Mrs. Dawson and caused quite a flurry about police headquarters for a time Thursday evening.

Dr. Dawson had planned to accompany Dr. O. W. Robe and W. D. Schaefer to the Chillicothe fall festival and it was deemed inadvisable to use his new car over the temporary roads. He telephoned to Mrs. Dawson that he would not be home for supper. She and a girl friend accordingly decided to come down town for lunch at a restaurant. They saw the doctor's car standing in government square as they entered the restaurant but when they emerged from the place were astonished to find it gone. Believing the car had been stolen Mrs. Dawson and her friend hurried to police head-

quarters and reported the fact. The patrolmen were detained long after roll call pending efforts to secure the license number of the car. Sergeant James Marshall called up F. E. Bower, local agent of the Overland company. He was unable to recall the license number but furnished the officer with the serial number of the car, then inquired if anything had happened. When told of Mrs. Dawson's fears he relieved everybody present by declaring he had passed the doctor on Chillicothe street an hour before in his new car and headed towards the pike. Laughing heartily the young women hurried away fully convinced that they were either the victims of some practical joke or a sudden change of mind on the part of the doctor. Mr. Bower met them with a machine and saw them safely back to New Boston.

Department Holds Hunt Responsible

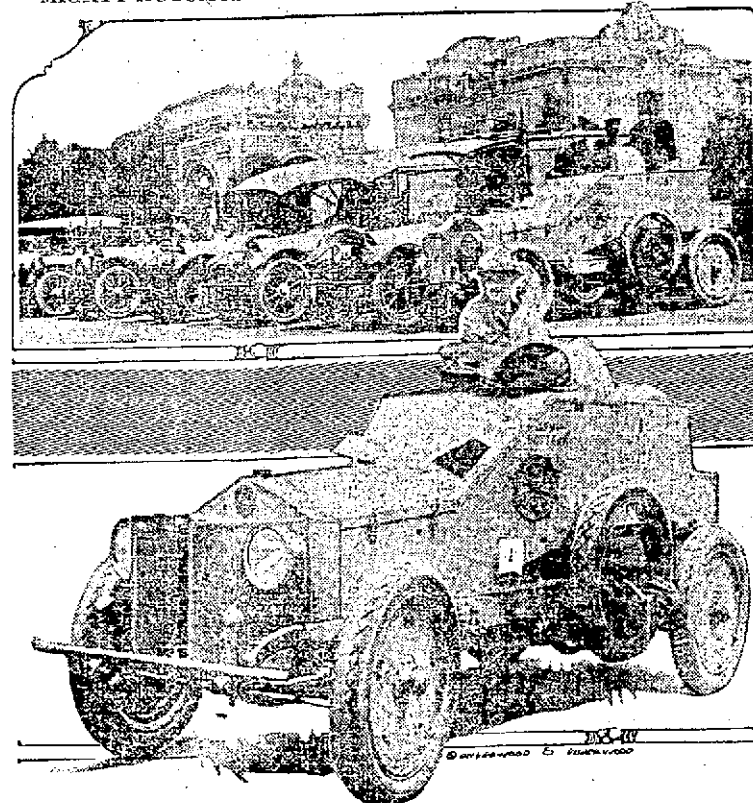

The public service department holds G. D. Hunt, a Gallia street meat dealer, responsible for the clogging up of the sanitary sewer the opening of which came near costing the lives of Van Lotell and Benny Boydston, Thursday.

The department has advised the mayor that Hunt took the liberty of removing a cover from the sewer and depositing entrails and other waste material from his slaughter house, producing a most offensive odor and causing the department to spend three days with a force of men in removing the obstruction.

Mr. Hunt has been directed to call at the service office and arrange to pay for the cost of removing the obstruction and pay for the medical service and loss of time of the city employees, as well as guarantee that he will not repeat his act again. Lotell had sufficiently recovered to permit of his discharge from Hempstead hospital, Friday morning.

Greenup Jury Does Not Think "Floater" Victim Of Murder

Positive identification of the body of the dead man found floating in the Ohio river near the wharfbank at Greenup, Thursday morning, by Whorlmaster William Wayson, was made by means of a pair of blue trousers the dead man wore, the color of his hair and two gold teeth, the victim proving to be Eldo Bigley, a night watchman, who was employed on a boat at Racine, O.

A jury impaneled by Sheriff William Arthur, of Greenup, Thursday afternoon, made an investigation of the circumstances surrounding the finding of Bigley's death and after the testimony of several witnesses was heard and the man's body thoroughly examined, a verdict of accidental drowning was returned. According to Sheriff Wm. Arthur, no marks whatever were found on Bigley's body and he says he does not place any credence in a theory of murder. There were no stab wounds, no bruises on Bigley's body, nor gun-shot wounds, and Greenup officials believe that Bigley met death by accidental drowning.

It had been reported that evidences of assault were found on the body of Bigley, who, it is supposed, slipped off a gang-plank and plunged to his death in the Ohio river.

Bigley's body was claimed by his brother, William Bigley, of Racine, O., Thursday night, and it has been shipped there for burial. Thirty-nine dollars were found among the dead man's effects, and it was a victim of foul play, robbery was not likely the motive that prompted the deed.

Three of the occupants, Mrs. R. L. Bates and Rev. and Mrs. E. A. Powell, were hurled from the machine but all luckily escaped injury. Mr. Bates, who was driving, was the only one to retain his seat. The automobile made the rest of the trip to Chillicothe and return without incident.

LAST TRACES OF APPLE SHOW ARE REMOVED

The last traces of the Apple Show so far as building material booth covers, etc., is concerned, were removed yesterday by the Lynd Transfer and Storage company and the material will be kept stored away until next year's show.

The removal of the booths and canvas was necessarily slow as many of the booth holders were slow in removing their exhibits and the heavy rain that occurred during the removal of the canvas made it impossible to take in this cover until it had died thoroughly or it would have been absolutely worthless next year.

BULGARIAN SHIPS SEEKING SHELTER

Athens, Sept. 23.—(Via Paris Sept. 24)—Diplomatic circles here have been informed that Bulgarian warships which were stationed at Varna, on the Black Sea have sought shelter in a neighboring bay. Large numbers of men are working at feverish speed to fortify Bulgarian Black Sea ports. The valuables of the branches of the National Bank at Burgas and Varna have been removed to Sofia.

The belief has been expressed in Bulgaria that if that country arrays itself on the side of the Teutonic Allies, Russia would attempt an invasion through the port of Varna, 30 hours sail from Odessa, although it is strongly fortified.
